*Criminal Justice Issues – Journal for Criminal Justice, Criminology and Security Studies* intends to promote new information, ideas, approaches and methods, to both academics and practitioners in the field of criminal justice, criminology and security studies. Since its establishment, *Criminal Justice Issues* follows the trends and issues related to crime and the security environment in general, with a special focus on understanding crime in different geographical and socio-economic contexts, presenting innovative crime prevention policies and practices, introducing legislative and institutional changes and presenting contemporary security studies.

The Journal has a scientific and professional background and it is published by *the Faculty of Criminal Justice, Criminology and Security Studies, University of Sarajevo*. The primary mission of the Journal is to publish peer-reviewed scientific and professional papers, book reviews, and professional translations in the field of criminal justice, criminology and security studies, with the aim to make direct contribution to the promotion and development of science, the professions, scientific research and higher education.

**Bosnia and Herzegovina**  
**University of Sarajevo**
